Subject: Fwd: Sample Coordination Contact for New Mexico

Sounds like this is an update contact to be made by Bill but possibly Steve needs to ensure this is communicated in AC.

Subject: Fw: Sample Coordination Contact for New Mexico

I'm not sure what he's asking for(?) Do you know of anything we can do to assist?

Gerald F.S. Hiatt, Ph.D.
Senior Regional Toxicologist
U.S. EPA, Region 9
415-972-3064
hiatt.gerald@epa.gov

Please be advised I have only limited ability to use email when not in the office (e.g., on travel) so please be patient with any delays in communication

Subject: Fwd: Sample Coordination Contact for New Mexico

Ned/Gerald,
Are either if you in a position to assist NPS in coordination?

Kristin provided your contacts for questions about Glen Canyon the other day.
Those concerns were addressed by the park.

We now need contact info for activity in New Mexico on the Animas below the

Colorado line. Please see below for more detail.
Thanks!

Subject: Sample Coordination Contact

Steve Mason,
Please provide contact info for sample coordination.

We are interested in the locations of 26 sediment samples from irrigation ditches collected 8-14; they aren't obvious on the data viewer yet. Has EPA or NMED addressed the Farmers Ditch in Aztec? Or nearby ditches, if there are any.

NPS has collected sediment and macro invertebrates from Farmers Ditch. If EPA or NMED has addressed the Farmers Ditch, we may decide not to analyze our samples. Or at a minimum, we will share our data once available.
